---

We should meet this week on this issue. It is difficult to move forward on soil sampling if this issue is not resolved. What is everyone's availability to meet this week? I am out early next week and will miss the weekly meeting.

Not in this version (see Figure 4 ,draft Soil SAP). After yesterday's team meeting, I had the impression that we're proceeding with the assumption of the southern impoundment as a separate OU (pending enforcement conclusions) to avoid delays in the current schedule.

Has this changed?

Thanks,

Stephen L. Tzhone

Hi Luda, Jessica, Steve:

1) Draft Soil Sampling and Analysis Plan:

- \* Proceed with review. Our internal EPA/TCEQ/Trustees/HC meeting will be on Fri 10/8 at TCEQ. I'll send the room and times info as we get closer, plan for all day.
- \* Please send in your comments prior to this internal meeting.

2) Draft Final Tissue Sampling and Analysis:

- \* Respond with 'additional comments' or 'no further comments' by Mon 9/20.
- \* The comments and resolutions grid is included as Appendix C. If no further comments, the next step will be authorization for field implementation.

3) Draft Final Technical Memorandum on Bioaccumulation Modeling:

- \* Respond with 'additional comments' or 'no further comments' by Mon 9/20.
- \* The comments and resolutions grid is included as Appendix C. If no further comments, the next step will be authorization for field implementation.

Thanks,

Stephen L. Tzhone

---

Dear Steve-

On behalf of McGinnes Industrial Maintenance Corp. and International Paper Company, Integral and Anchor QEA have posted the following documents on the San Jacinto River Waste Pits document portal, in the folder called "SJRWP Site – Working Documents":

- Draft Soil Sampling and Analysis Plan

Hardcopies of this draft document are being sent to you (2 copies), Edwin Barth of EPA (1 copy), and Luda Voskov of TCEQ (3 copies) by Federal Express today, for delivery Monday. Appendix B of the Soil SAP, which provides the laboratory standard operating procedures and

quality assurance manual, is lengthy and has been burned to CD, and included with the hardcopy deliverables in CD form only.

In addition, we have updated the portal with the following documents; these have been revised according to EPA comments:

- Draft Final Tissue Sampling and Analysis Plan
- Draft Final Technical Memorandum on Bioaccumulation Modeling

Revised documents will be provided in hardcopy following your approval of the revisions.

These documents are submitted pursuant to CERCLA Docket No. 06-03-10, UAO for RIFS

*Jennifer*
